

GARRETT®

GARRETT®
PRO-POINTER® AT
Blackline Edition

Built to handle your harshest environments

The *PRO-Pointer® AT Blackline Edition* is a military-grade metal detector submersible up to 20 feet and sensitive to ferrous and non-ferrous weapons, contraband, and other metallic objects. Its scraping blade, exterior ruler, and belt holster transform the *PRO-Pointer AT Blackline Edition* into the premier metal detection tool for countermine, law enforcement, and humanitarian sectors.
