

# GARRETT®

## Pro-Pointer II®

PN 1166050

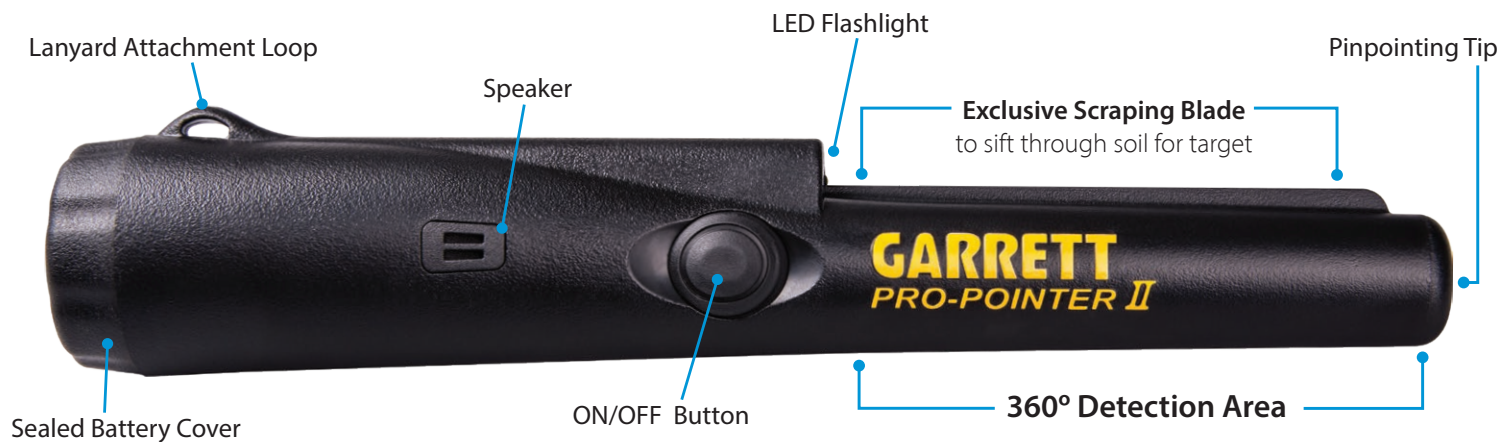

A must-have tool in your treasure recovery kit!

### Features:

- 360° Detection Range: The 360-degree detection field offers comprehensive scanning around the pinpointing tip. It allows for the precise location of metal objects with minimal effort.
- LED Flashlight: Enhances visibility in low-light conditions and has 2x to 6x the battery life of other handheld pinpointers with LED lights.
- Fast Retune: The quick power on/off retune method allows users to tune out the detection of saltwater, wet sand, or highly mineralized ground.
- One-Touch Operation: Simplifies use and eliminates the need for complicated settings adjustments, making it accessible to users of all skill levels.
- Lanyard Attachment: The device's lightweight design allows it to be attached to your belt, digging pouch, or metal detector for easy transport.
